## What Our Past Regional Project Leaders Have To Say...

In this 5-day PLC, I have learned more than I had expected and I learned about leadership. Although my body was tired throughout the training, I have been mentally alert. Especially when watching the videos, many at times they have made me close to tears and I respect individuals in such depicted situations...

**Agus Nelwan**  
General Manager

It's been a very humbling experience to realize how much I don't know. It also gave me the opportunity to reflect on my past projects which all were driven by common sense. Realizing it could actually have much better way to do it effectively ...

**Lim Siew Ming**  
Head of Strategic Execution (RWM)

Eventhough I have had 2 sleepless nights over 5-day PLC, I feel completely satisfied. I am enriched with a lot of useful and practical knowledge I should have been getting years ago. I am very happy that from this course, I got acquainted with our fellow colleagues from other OpCos. The activities and interactions made us closer, hence, it wasn't just a training but also a team building session as well. I truly have no regrets.....

**Alexey Kovrizhnykh**  
Head of IT Infrastructure

Eustress, eustress and more eustress! The PIKOM PLC has been an exhilarating experience for all of us pulling out all-nighters. This is once in a life-time opportunity allowing me to deep-dive into acquiring PPM Framework as well as life-defining wisdom. The making things happen guidance and teachings have been immensely beneficial. Go For It!

**Pratik Mishra**  
Project Manager

The 5-day PLC is totally beyond any normal project management training I had. Not just learning how to solve issues. What I love the most is how to remove your own limitation. I like the hands on session of how to handle a PMIS. I also enjoy the knowledge sharing by IGS. This course is totally worth it ...

**Percy Carbella**  
Managing Consultant

I have finally found a great and targeted program which supports my work and my life - the PLC. I feel that personally, it would have been great if I had participated in this training years ago. It has been an amazing experience and I personally recommend all others who aspire for greater heights to participate...

**Chet Vuthy**  
Manager - Converged Core Network Planning & Operations

The 5-day PLC definitely exceeds my expectation. It was more of a boot camp rather than training. What has been learnt is helpful to us especially when we go back to our normal routine .

**Ng Kim Hoe**

I am looking forward to implement the skillset and knowledge learnt in the 5-day PLC to practise at work place. At first, I thought you just needed technical skill, now I know you need wisdom in order to makes thing happen ...

**Willyanto Tjatur**

Regarding this training, I can see that many are considered successful. The difference is about the leadership and PLC training truly demonstrate this; 2nd thing is the behavior with tips on humility; and 3rd is leading by example...

**Shamsuddoha Md. Shafie**

The 5-day PLC is an incredibly intensive course, covering the 10 knowledge areas in 2 days instead of each in 2 days (at least 10 times more intensive). The techniques and life-long learning exemplified in the PLC course delivery will put me in good stead in realizing outcome-based successes in both my professional and personal life. PLC motivates me to impart the knowledge acquired to my team members, friend and family ...
